CMB combines a full service clinical laboratory with a clinical trials/research group focused on introducing innovative diagnostics for both physicians and pharmaceutical clients. Our experienced scientists are capable of developing and validating assays to meet the unique needs of your protocol. In addition, we are experienced in providing electronic data transfers as well as implementing new technologies to personalize our client's needs.

Consolidated Medical Bio-Analysis, Inc. has in place extensive quality assurance procedures to insure the accuracy of test results performed at our facility. Our licenses and accreditations include:

- Clinical Laboratory License
  - CLIA
  - CAP

# Consolidated Medical Bio-Analysis, Inc.

## Providing excellent patient care since 1979

We offer a full menu of clinical testing to meet the needs of your patients and clients. All laboratory work is performed on the latest instruments as well as the most advanced technology available. Each department utilizes validated diagnostic assays to provide accurate results and reliable interpretations. CMB Lab is comprised of the following departments:

- Anatomic Pathology
- Clinical Chemistry
- Clinical Trials
- Cytology
- Hematology/Urinalysis
- Histology
- Immunology
- Microbiology
- Molecular Pathology
- Mycology
- Toxicology
- Virology

**The Anatomic Pathology Department** is a full service department offering gynecologic and non-gynecologic cytology.

**The Histology Department** is dedicated to the production of quality sections and a wide range of special stains. The laboratory accepts formalin-fixed tissues, paraffin blocks, or pre-cut slides for special staining techniques.

**The Molecular Pathology Department** is currently performing assays for Hepatitis C viral RNA, Hepatitis C Virus Genotype, Hepatitis B viral DNA quantitative by real time PCR and Human Papilloma Virus (HPV) DNA.

The accuracy of results begins with the specimen collection and preparation stage. CMB ensures the proper handling of specimens at the pre analytical, analytical and post analytical stages.

CMB Lab provides the highest quality of diagnostic services for physicians and their patients, offering the most sophisticated methods for evaluating the full range of patient specimens, including blood, fluids, tissue biopsies, surgical resections, PAP smears and other cytology samples.

Our goal at CMB is to provide qualified solutions for the patients and their physicians. We offer STAT testing for our clients, with a 4-hour turn-around time.

CMB provides a courier service to allow fast and efficient specimen pick-up to and from physician offices and clinics. The lab will supply all forms, blood collection tubes, and other related materials upon request.

Most routine results are reported within 24 hours and sent to the referring physician. Results can be provided through either fax or courier service. Critical results will be notified to the physician's office as soon as they become available.

## DRAW STATIONS

### GARDEN GROVE

12665 Garden Grove Boulevard Suite #114  
Garden Grove, CA 92843
